

SUBMISSION OF DIGITAL IMAGES AFTER REGISTRATION OF IRIS CULTIVARS

When submitting images to the AIS Image Coordinator, please complete and include this form with your images, either via email or by regular mail.

This form can be filled out on your computer or printed and completed by hand.

Before submitting the completed form and images via email, save the completed form on your computer, using the following steps. (1) At the top left of the screen, click *File*, (2) From the pull-down menu, select *Save As*, (3) In the *File Name* field at the bottom of the window type the name of the file (give it any name you choose), (4) The location on your computer where the file will be saved is displayed in the *Save in* field at the top of the window; select a new location if you wish, (5) Click *Save*. Email completed form with images.

Hybridizer Name: _____

E-mail: _____ Date: _____

Iris Name: _____

When submitting multiple images at the same time, continue listing the iris names on page 2.

Guidelines for Image Submission:

- Registrants are requested (but not required) to submit images after a registration has been completed and they have received the Registration Certificate.
- The submissions should be the highest quality digital images in jpeg format (4x6-300 dpi or medium setting on a camera- Higher Resolution (600 dpi) is preferred but not to exceed 1200 dpi).
- Images should be labeled as follows: iris name_hybridizer_year_of_registration_type_photographer (i.e. Splashacata_Tasco_97_TB_JSmith). Fields should be separated with an underscore (_).
- If possible, the submission should include:
 - a close up image of the flower,
 - an image of the flower and stalk, and
 - an image of the clump.

It is to the advantage of the hybridizer to submit the best photos possible so that the images promote the cultivar in AIS projects. The photographer retains copyright ownership but agrees to any AIS uses when they submit images of the iris.

- The photograph of the flower should be taken in the garden with no digital manipulation permitted. Color and form should be true to cultivar in all respects and in sharp focus.
- Images are to be submitted with this form to the Image Coordinator at: AISSlides@irises.org

Detailed Copyright Disclaimer:

The registrant hereby acknowledges that by submitting a photograph of an iris cultivar registered with the Registrar-Recorder of the American Iris Society the registrant hereby grants the AIS and its agencies (Affiliates, Regions, Sections) the right to reprint or republish such photograph in the Iris Encyclopedia maintained by the AIS; in any of the newsletters or journals published by the AIS or its agencies; to publish such photograph on any website maintained by or on behalf of the AIS or any of its agencies; and to publish such photograph in any other publication published by the AIS or its agencies in the ordinary course of its educational and scientific activities.

Submission of a photograph to the AIS represents and warrants that, with respect to the photograph submitted, the hybridizer is the owner of all copyright rights other than those rights otherwise granted to the AIS herein or by law. If the photograph submitted was taken by other than the hybridizer, the hybridizer certifies that permission has been obtained from the owner of the photograph for the uses described herein. The photographer shall retain ownership of all individual copyright rights to the photograph covered by this agreement except for those rights granted to the AIS or by law.
