Garden Judging

1. T / F The highest award specific to the Siberian Iris is the Morgan-Wood Medal.
2. T / F 28s, 40s and tetraploids should all be judged using the same criteria
3. T / F Staking a stem to keep it off the ground is acceptable.
4. T / F The plant is more important than the flower in the point scale.
5. Good / Bad What is a little Botrytis amongst friends?
6. T / F Gracefully arching foliage is preferable to upright foliage.
7. T / F I saw a picture once. I can effectively judge a Siberian.
8. T / F Vertical flower forms are to be preferred over horizontal.
9. T / F Early or late blooming Siberians should be given extra consideration.
10. Good / Bad I like Terry Aitken so I am going to vote for his iris.
11. T / F A Siberian iris with exceptional garden impact should be rewarded.
12. T / F Multi-petal forms are to be discouraged because they lack symmetry.
13. T/F Being a judge can be an expensive endeavor.
